

A close-up photograph of a travertine tile floor. The tiles are light beige with natural, porous textures and some darker veining. In the bottom left corner, a green plant with large, broad leaves is partially visible, along with some dark grey pebbles. A semi-transparent grey rectangular box is overlaid on the top right of the image, containing the word 'Travertine' in a large, black, sans-serif font.

Travertine

Information and Features

Each Set Includes

1x 610x406

2x 406x406

1x 406x203

2x 203x203

PLEASE READ PRIOR TO PURCHASE - Material Consideration - Due to the nature of natural stone, it is expected that products will vary in appearance, colour, texture, grain, shape, size and markings. No two pavers or tiles will be the same, and that is what provides the beauty of natural stone products. It is a good idea to blend tiles / pavers from all crates prior to laying. Products have an acceptable size tolerance of up to +/- 2.5mm, so it is important to arrange pavers by thickness and incorporate a grout space when laying. Small amounts of chipping as well as natural marks are considered acceptable in natural stone products. It is the responsibility of the user to inspect the tiles / pavers prior to laying as claims will not be honoured after products have been installed. Excessive chipping, cracks or size variation may be eligible for claim. Travertine Antique Silver is subject to pitting and holes and is considered acceptable.
