

CONCRETE RETAINING WALL SYSTEMS

BEFORE

AFTER

DURAWALL for the best retaining wall system.

AN ENGINEERED SOLUTION HARD TO BEAT!

WHY CHOOSE US

Durawall concrete retaining walls last considerably longer and require virtually no maintenance.

So whether you're replacing an old retaining wall or building from scratch, Durawall has a product that stands the test of time for quality and longevity.

Durawall's sleepers are manufactured to exact dimension; this ensures each sleeper is exactly the same, giving you a uniformed look on every project.

FEATURES

- ✓ Slim Profile
- ✓ Simple Design
- ✓ Australian Owned and Operated
- ✓ Engineered Solutions
- ✓ Supply and Installation available

BENEFITS

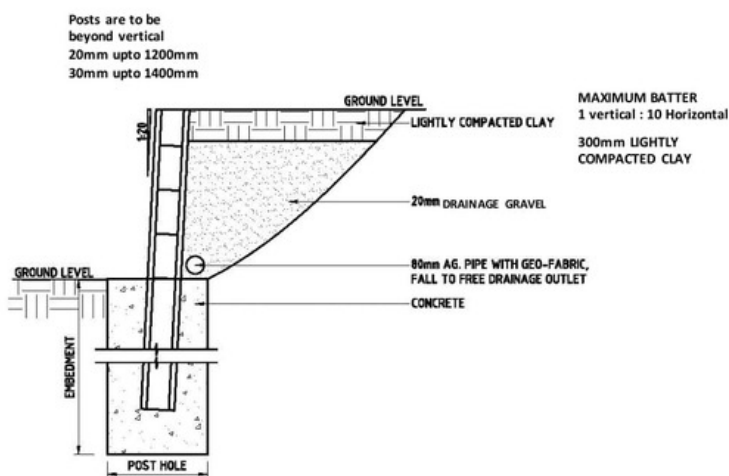

- ✓ Design enables for easy installation
- ✓ Locally made
- ✓ Professional service and advice

DURAWALL is an engineer designed retaining wall solution with a design life of 60 plus years.

Fully compliant to AS 4678 and AS 3600, it is the ideal alternative to traditional timber sleeper walls and core filled block walls.

- ✓ last considerably longer than timber walls
- ✓ are maintenance free
- ✓ will not rot, burn, warp, split or flake and are termite resistant
- ✓ provide structural strength and stability on all types of land
- ✓ engineered for a fence attachment
- ✓ quick and efficient to construct compared to block construction

(Fig.2)
