3200x150mm		N5914	74.88kg	
3600x150mm		N5915	84.24kg	
4000x150mm		N5916	93.60kg	

Refer to the installation guide available in-store or on Nuway's website. The recommended wall heights shown here are a guide only. Consideration needs to be given to variables such as soil type (ie igneous rock, clay, sand, etc) type of backfill/subgrade material to be used and whether the wall is weight bearing. Seek engineering advice for walls over 1m high or where soil, backfill and subgrade type may affect the stability of the wall.

STEEL H BEAM POSTS GALVINISED WITH REO (Below are not the length of the post)		CODE	RETAIL UNDEL'D
100mm - Wall height 600mm		N6897	Due to demands worldwide for steel, prices can vary and change at any time. We recommend Nuway provide you a quote on application.

180mm - Wall height 2800mm		N6911	
180mm - Wall height 3000mm		N6912	

How to Measure GALVANISED H POST with Reo

All of the above hot dipped galvanised H posts with reo are measured as per your retaining wall height.

Example - 600mm H post with Reo wall height.

- 350mm sleeper tab to bottom of H Post

- 300mm reo length from bottom of H post top bottom of Reo
