## Beautiful Products

—  
The GB Masonry collection has been a symbol of quality in the masonry industry since 1978 when our company was founded. For products that show the skill of master craftsmen there is no rival to the GB Masonry collection of premium masonry.

Photographer – Jack Mounsey

## Our Range

—  
GB Masonry sources the best quality sands and aggregates, achieving distinctive colours and finishes thanks to outstanding attention to detail and extensive expertise. Our masonry products have become a hallmark of architectural style and design, with a range that includes sleek honed options, bold textured finishes in the split face and rock face ranges, and the timeless style of our smooth finished ranges.

## The Benefits

—  
When considering building products to use on your project it is important to understand all the pros and cons before making your final selections.

1.

### Low maintenance

Minimal maintenance, maximum impact. You're guaranteed a long-lasting, tough, and easy to care for solution.

2.

### All-weather resistant

Heavy storms. Blistering heat. Sub-zero frosts. Our products are designed to hold up to anything our weather systems are capable of throwing at it.

3.

### Fire resistant

All of our products are non-combustible and highly fire resistant – making them ideal for bushfire prone areas.

4.

### Termite resistant

With no organic wood materials present in our concrete formulations, our masonry range is naturally termite resistant.

5.

### Simple installation

Easy to install and structurally robust – our products are perfect for 'do it yourself' installations.

6.

### Environmentally aware

We've designed our production processes to minimise effects on the environment ensuring they do not deplete precious natural resources

7.

### Impact resistant

Our masonry range is also renowned for its toughness and hard-wearing properties, and can handle impacts from many external forces.

8.

### Marine safe

Our products are rated as exposure grade which means they are resistant to salt attack and therefore ideal for use in coastal locations.

# Ideas for inspiration

—  
Whatever your ideas, we have the products to turn them into reality.

**Bricks and Advanced Brick Systems**  
We offer Australia's largest collection of bricks, with an extensive range of colours and finishes. Our advanced brick systems offer a brick finish with increased speed and ease of installation.

**Blocks and Breeze Blocks**  
Our block and breeze blocks are available in an extensive range of colours, sizes, and finishes designed to complement modern architectural designs.

**Roofing**  
Explore our concrete, terracotta and solar roofing selection. Practical and clean-lined, our roofing products are designed to add style to your project whether residential or commercial.

**Pavers**  
We offer a vast paving range which includes a range of styles, colours and finishes to suit modern landscape designs.

**Natural Stone**  
Our Granite, Marble, Limestone and Porcelain flooring products are crafted to complement inspired outdoor spaces.

**Retaining Wall Blocks and Concrete Sleepers**  
Our retaining wall range offers options to suit DIY, general landscaping or large scale commercial retaining wall applications.

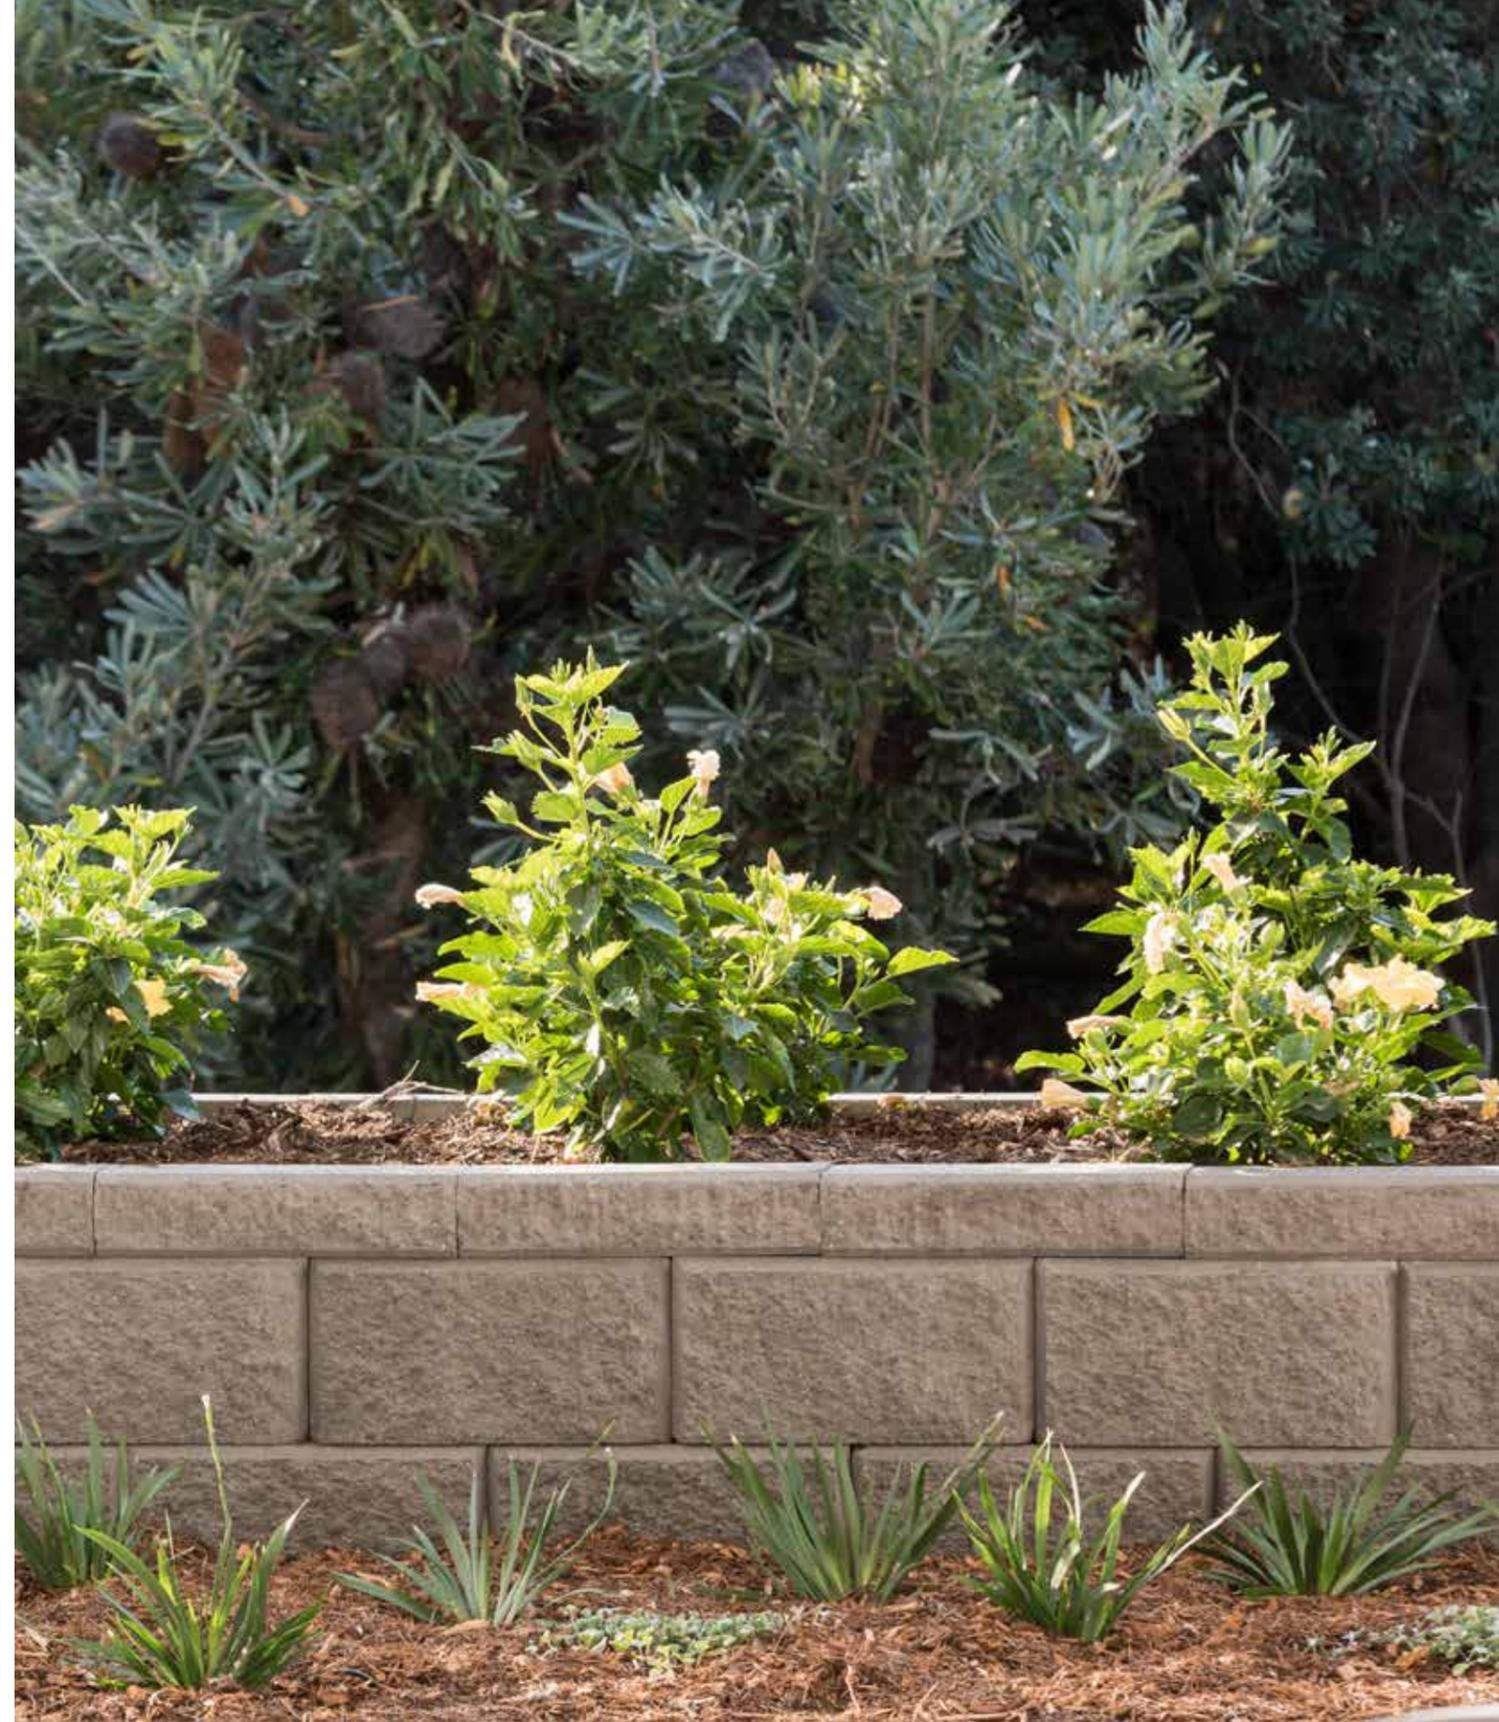

**Wall Cladding**  
We offer a collection of ceramic, terracotta and natural stone wall cladding products crafted to suit residential and commercial applications.

**Limestone Blocks\***  
The limestone block range is sourced through quarries in Western Australia with two finishes available to complement the natural limestone colour.

**Mortar and Accessories**  
From preblended mortar, to concrete sealers and mortar additives, we offer a host of installation accessories.

# Backed by Brickworks

Local expertise. Global quality. Brickworks Building Products are one of Australia's biggest building material manufacturers. With heritage going all the way back to one of Australia's founding brick producers, we're proud of our reputation for design, innovation and sustainability.
