<b>Nara Zoysia</b> - Direct Delivery Per m2	\$13.50
<b>Augusta</b> - Direct Delivery Per m2	\$24.20

NB: To calculate how many slabs are needed to cover a certain area, DIVIDE M2 BY 0.75

COST OF LAYING TURF	QTY	RETAIL
	Under 210m2	\$440.00
The laying fee covers "Installation only" that is, laid on a prepared surface. The soil bed must be prepared before delivery at a depth of 100-150mm and levelled up. Turf will then be laid on this surface, rolled, then watered.	211m2 - 500m2	\$2.05/m2
	501m2 - 800m2	\$1.85/m2
	801m2 - 1200m2	\$1.50/m2
<b>COST OF WHEEL-BARROWING</b>		\$0.65 PER M2
A Wheel-Barrowing fee will apply if the turf has been delivered more than 10 metres distance to the laying site, or, if the site is difficult to access. (Incidences where a wheel-barrowing charge may apply)		
1. Turf to be laid is at back of property but can only be delivered to front of property.		
2. Turf has been delivered at bottom of steep driveway and the turfing is at top of driveway.		

LAWN BLOCK - 610X410MM (0.25M2)	CODE	RETAIL EA
SIR WALTER (Per lawn block)	N6346	\$3.26
PALMETTO (Per lawn block)	N6730	Temporarily Unavailable
WINTERGREEN (Per lawn block)	N6347	\$1.81

AQUATURF 1 LTR (Liquid wetting agent)	N406	\$35.00
FERTILISER SPREADER	N7194	\$35.00

## DELIVERY RATE: \$99.00. (free if over 300m2)

The standard delivery area includes Brisbane Metro, as far as Gympie, Pottsville and Amberley. If you require a delivery outside these regions please ask a Nuway staff member to quote a price for delivery. Extra freight will be charged for difficult access. Forklift is available for direct to site deliveries. A pallet less system is used.

## DESCRIPTION:

**Sir Walter** - Sir Walter Buffalo Grass is known for its shade tolerance and is able to handle 70% shade, which is more than most other varieties. Sir Walter can tolerate extreme heat, frost or drought and also has the ability to maintain colour and coverage during winter months. Sir Walter has a tight growth habit of the roots and will hold out most weeds and common grasses that may be present. The ability to repair quickly if damaged will lessen the likelihood of those dreaded bare patches.

**Palmetto** - Palmetto soft leaf buffalo grass, perfect for commercial areas, as well as your family backyard, having a deep root system makes Palmetto the perfect pick for large areas as it is more water efficient and drought resistant. Can handle approximately 70% shade (requires 2-4 hours of direct sunlight). Palmetto tends to have a slower upward leaf growth and is a low allergenic grass. (40% less seed head)

**Wintergreen** - Wintergreen couch has a fine bright green leaf. Wintergreen lawn needs to be in full sun, (2 hours of shade and it will die off) Ideal for Parks, Sports fields, Road Verges, Footpaths, Dam walls & Residential yards.

**Empire Zoysia Turf** - Fine dark green leaf with a luxurious soft to touch feel - It is a semi shade tolerant (requires 4-5 hours full sun per day) It is one of the most drought tolerant turf varieties, with its deep root and underground runner system.

**Oz Tuff** - A Couch with a high wear, low maintenance & salt tolerant. - Needs to be in full sun (can only handle 2 hours of shade or it will die off). A slow growing less mowing turf & a low allergen variety of lawn grass.

**Sapphire** - A finer textured Buffalo with a deep green and a tinge of blue (Sapphire) colour, excellent wear resistance due to Sapphire being able to recover well from any injury caused. Salt resistant grass and low water usage. Shade tolerance of 70% each day.

**Jari Blu** - has a medium leaf with excellent wear tolerance. Thrives in extreme heat and is salt tolerant. Low water usage. Copes with 40-50% shade each day. Grows well in both Clay and sandy soil.

**Nara Zoysia** - Nara native zoysia has a medium-fine leaf with a very high drought tolerance. Performs in heat and humidity and has a high salt tolerance. Perfect for coastal areas, including beachfront and waterfront properties.

**Augusta** - Augusta zoysia lawn if you are wanting a finer leaf lawn which is dark green, can handle over 75% shade, is low maintenance, has a low water, nutrient and fertiliser requirements then Augusta Zoysia is for you. Perfect for your lawn at home, parks, sports fields and golf courses.

## LAWN PREPARATION & INSTALLATION - Please refer to Nuway's Guide to laying turf.
