How to Measure **GALVANISED H POST** with Reo

All of the above hot dipped galvanised H posts with reo are measured as per your retaining wall height.

example:

Example - 600mm H post with Reo wall height.

- 350mm sleeper tab to bottom of H Post

- 300mm reo length from bottom of H post top bottom of Reo

CONCRETE SLEEPER & POST WALL CONT....

Fence Bracket Standard 3mm	N5926		\$25.20
Fence Bracket Heavy Duty 6mm	N5927		\$29.10
Fence Bracket Offset Heavy Duty 6mm	N6573		\$31.10

DELIVERY CHARGE: Nuway sales staff to refer to freight instructions in counter folder.

Refer to the installation guide available in-store or on Nuway's website. The recommended wall heights shown are a guide only. Consideration needs to be given to variables such as soil type (ie igneous rock, clay, sand, etc) type of backfill/subgrade material to be used and whether the wall is weight bearing. Seek engineering advice for walls over 1m high or where soil, backfill and subgrade type may affect the stability of the wall.
