| TONNAGE/CUBIC METRE CONVERSION - Some retailers sell by weight or tonnage this can appear cheaper, but can be deceiving. I.E. m ³ of concrete blend can weigh up to 2 tonnes particularly if it's wet, therefore the tonnage retail price can appear to be up to half the price of a meterage price. | | | | | | | | |
| The tonne to M ³ ratio is shown next to the price of all soils, sands and gravels this indicates how much 1m ³ of each product weighs. | | | | | | | | |
