**\*DELIVERY:** The above prices are the delivered prices for Brisbane & Gold Coast metropolitan areas for order **over 3 tonne. \$119.90 will apply to orders less than 3 tonne, (\$182.60 from Caboolture to Sunshine Coast.)**

Deliveries outside the Brisbane, Gold Coast regions will attract extra delivery charges. (ie north of Deception Bay, south of Tweed Heads, West of Ipswich and hard to reach locations such as Mt Tamborine)

Pallets remain the property of Adbri Masonry, a contact phone number can be found on the side of the pallet or email [pallets@adbri.com.au](mailto:pallets@adbri.com.au) for collection.

Versaloc is a mortarless block system. This block features an interlocking system that removes the need for mortar and plastic connectors whilst maintaining lateral strength.

These blocks are suitable for building retaining walls, basement walls, comprehensive load capacity walls, fences, letterboxes & BBQs.

The first layer of blocks should be mortared to a concrete base to provide line and level for the remaining block courses.

Backfill wall with a 300mm width of gravel and lay continuous agg pipe located at the base of the wall.

Engineering specifications can be found on Nuway's Website
