**PLEASE NOTE:** Materials which are naturally-source from quarries, such as Gravels, Pebbles Mulches, Soils & Sand may have variation's from batch to batch, especially in terms of colour.

**TONNAGE/CUBIC METRE CONVERSION** - Some retailers sell by weight or tonnage this can appear cheaper, but can be deceiving. I.E. m<sup>3</sup> of concrete blend can weigh up to 2 tonnes particularly if its wet, therefore the tonnage retail price can appear to be up to half the price of a meterage price.

The tonne to M3 ratio is shown next to the price of all soils, sands and gravels this indicates how much 1m<sup>3</sup> of each product weighs.
